

TRADITIONAL AIR PANEL VS. MULTITUBE

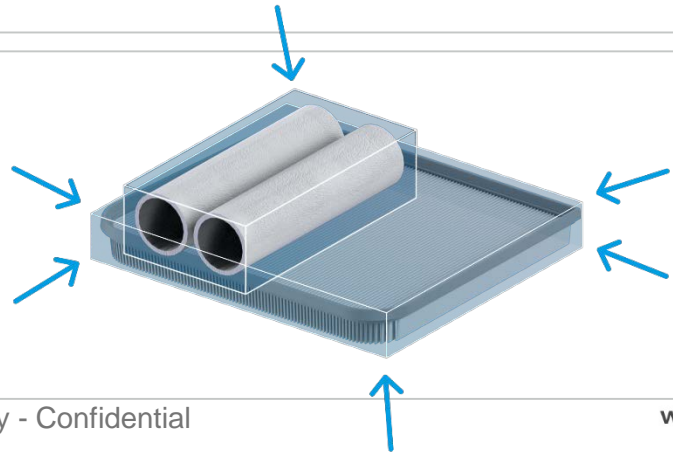

1 - Pressure drop

2 - System performance consistency over life time

3 - Layout flexibility

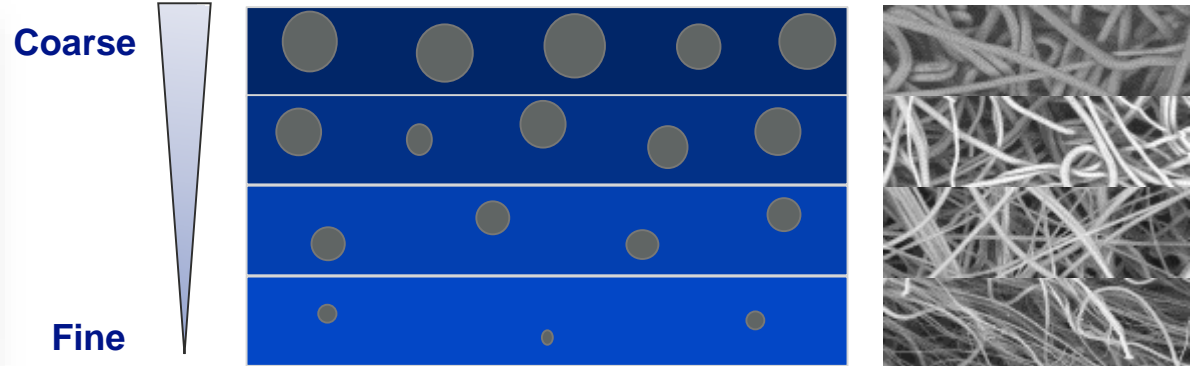

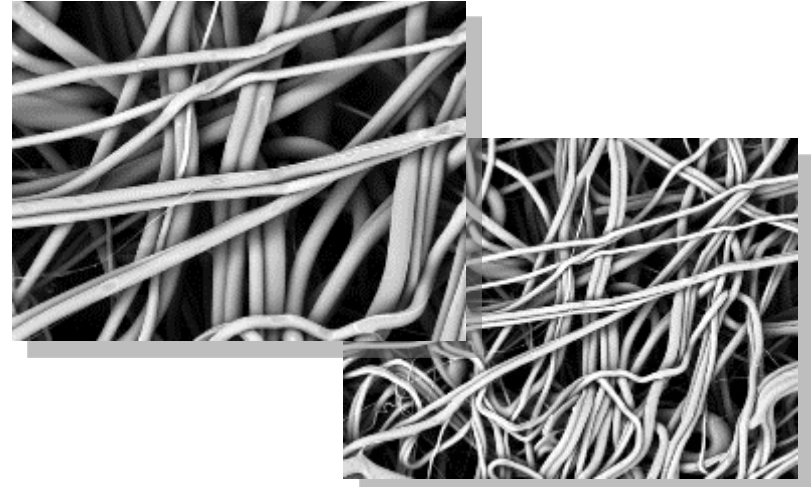

DEEP FILTRATION MEDIA

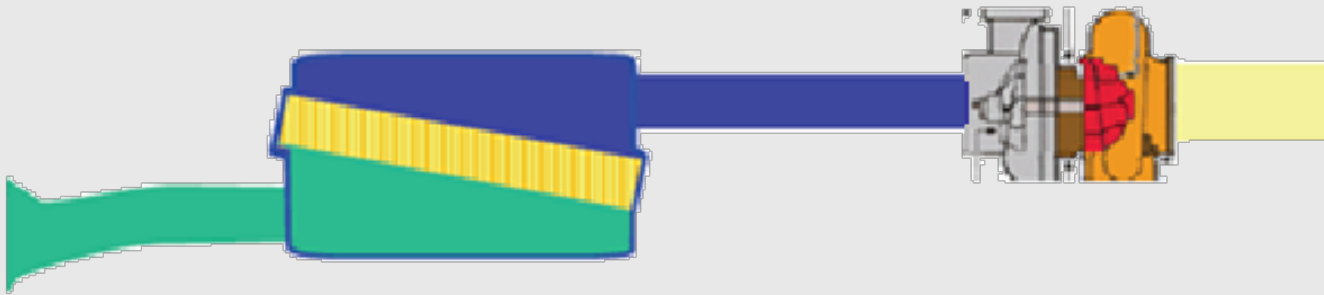

UFI **MULTITUBE** has a polymeric structure which creates different layers.

The very high fiber surface guarantees a high efficiency and the dirt retain is less affected by the dust dimension.

MULTITUBE filter material is UFI-Made and can be fully customized.

STANDARD INTAKE SYSTEM

MULTITUBE INTAKE SYSTEM
